10 recommended majors in the U.S.

Check out these college majors, based on job prospects, alumni salaries and popularity, as **recommended by The Princeton Review**. UC Davis has most of them. Our **managerial economics** degree is quite similar to a business degree. And, while we don't offer a nursing undergraduate degree, our **Betty Irene Moore School of Nursing** offers four master's degrees and a doctoral degree. As for biology, at this public university known for its biological sciences, you can choose from **nearly two dozen majors in that category** that span from **animal science** to **microbiology**.

1. Computer science
2. Communications
3. Government/political science
4. Business
5. Economics
6. English (language and literature)
7. Psychology
8. Nursing
9. Chemical engineering
10. Biology

Top 5 majors by colleges

Curious which majors are the most popular at UC Davis by **college**? Within this university,**our 102 majors** and academic programs are **organized by undergraduate college**. When you apply to UC Davis, you choose a major, which automatically places you into one of these colleges.

Here's a summary of the statistics based on the number of students enrolled in 2016-17. The percentages show the proportion of students pursuing the major in that college.

College of Agricultural and Environmental Sciences

The No. 1 ranked university in the U.S. for agriculture has **28 majors** in environmental, human and animal sciences.

Resembles children with autism

Quick Summary

- **UC Davis researchers have discovered a surprising clue to maladjusted foal syndrome.**
- **The behavioral abnormalities in these foals seem to resemble some of the symptoms in children with autism.**
- **The hope is that their efforts will help prevent and treat the disorder in foals and advance the search for the causes of autism.**

SEMrush

- The keyword density is 2.8%, which is over the advised 2.5% maximum; the focus keyword was found 17 times.
- A meta description has been specified, but it does not contain the focus keyword.
- The copy scores 43.9 in the Flesch Reading Ease test, which is considered difficult to read. Try to make shorter sentences, using less difficult words to improve readability.
- No outbound links appear in this page, consider adding some as appropriate.
- The specified meta description is over 156 characters. Reducing it will ensure the entire description is visible
- The page title contains 36 characters, which is less than the recommended minimum of 40 characters. Use the space to add keyword variations or create compelling call-to-action copy.
- The text contains 599 words, this is more than the 300 word recommended minimum.
- The focus keyword appears in 8 (out of 13) subheadings in the copy. While not a major ranking factor, this is beneficial.
- The images on this page contain alt tags with the focus keyword.
- The focus keyword appears in the URL for this page.
- The page title contains the focus keyword, at the beginning which is considered to improve rankings.
- The focus keyword appears in the first paragraph of the copy.
- You've never used this focus keyword before, very good.
